SHREYA BAWANKAR

Computer Science & Engineering | Python | AI/ML | Data Science
+91 93730 86466 | shreyabawankar46@gmail.com | LinkedIn | GitHub

Education

Symbiosis Institute of Technology, Nagpur — *Currently Pursuing*
B.Tech. in Computer Science & Engineering — 5th Semester

St. Xavier's High School — CBSE — Class XII

Sanjuba High School — CBSE — Class X | 83%

Experience

Python Programming Intern — *Maincrafts*

- Applied core Python concepts to practical development tasks and structured programs.
- Strengthened problem-solving, debugging, and software-development skills through hands-on work.

Projects

Multi-Agent AI Research System — *Python, LangChain, LLMs*

- Developed a multi-agent workflow for automated research and report generation.
- Implemented specialized agents for planning, information retrieval, coordination, and external search.

Machine Learning — Salary Prediction — *Python, Scikit-learn*

- Built prediction and classification models using Linear and Polynomial Regression, Ridge, Lasso, Logistic Regression, and KNN.
- Performed data preprocessing, model training, evaluation, and visualization using standard ML libraries.

Symbot — Institute FAQ Chatbot — *Python, NLP, HTML/CSS/JavaScript*

- Designed an academic FAQ chatbot using text preprocessing, pattern matching, and TF–IDF retrieval.
- Explored intent classification, entity extraction, fallback handling, and a web-based user interface.

ESP32 Gesture-Controlled Car — *ESP32, MPU6050, ESP-NOW*

- Developed a gesture-controlled vehicle with accelerometer-based input and motor-control logic.
- Used ESP-NOW for wireless communication between the handheld controller and vehicle.

Technical Skills

Languages	Python, C, Java, SQL, Assembly
AI & LLMs	LLMs, Multi-Agent AI, LangChain
Machine Learning	Scikit-learn, Regression, Classification, Data Preprocessing, Model Evaluation
Data & Databases	NumPy, Pandas, Matplotlib, SQL, PL/SQL
Web & Tools	HTML, CSS, JavaScript, Git, GitHub, VS Code, Google Colab
Embedded Systems	ESP32, MPU6050, ESP-NOW

Certifications & Activities

- Frontend Hackathon — HackOcean (Certificate); Python Programming Internship — Maincrafts.
- Active GitHub work involving C, Java, Design and Analysis of Algorithms, Operating Systems, and microcontroller projects.

Relevant Coursework

Data Structures | Design & Analysis of Algorithms | Object-Oriented Programming | Operating Systems | Database Management Systems | Machine Learning | Microcontrollers & Embedded Systems

Areas of Interest

Artificial Intelligence • Machine Learning • Data Science • Python Development • Software Development
